

PACKAGING TWINES, LASHINGS & STRINGS

When it comes to packaging twines, Donaghys has the category wrapped up. From the small household requirements of our boxed Cotton, Jute and Polyester strings, to the commercial applications of biodegradable Sisal and Superfilm lashing, Donaghys have a product to meet all demands.

PACKAGING TWINES

PAKTWINE

- Ease of handling
- Strong lightweight twines
- Chemically resistant
- Easily managed draw from centre

A complete range of all-purpose synthetic lashing designed for use in a wide range of applications, Synthetic lashings have relatively high strength while being lightweight and easy to handle. Manufactured for Australasian conditions at our ISO9001:2000 accredited factories, ensuring quality and performance.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
LAS0054	PP LASHING 1/200 1 x 1500M WHITE	5000T	170KG	7.5 KG

CONTRACTOR & COMPACTOR PAKTWINE

- Tough, strong & abrasion resistance
- Soft feel, smooth handling
- Low stretch & good abrasion resistance
- Safer & economical alternative to steel strapping

Contractor & Compactor Paktwines are made from high quality polymers. High strength with low elongation & excellent knotting efficiency these products are suitable designed for baling waste.

TWI0008	JUTE SHOP TWINE (22J FINE) 6 x 460M	800T	12 KG	3 KG

BLACKPAK LASHING

- Medium to heavy twines for stronger applications
- Strong, soft handling & knots well
- UV stabilised for increased durability
- Available in 1, 2 and 3 ply constructions
- Does not absorb moisture or rot
- Pull from centre release ensuring smooth running

A wide range of UV stable black lashings for outdoor use, gardening, horticulture and applications that require a stronger lashing. Manufactured for Australasian conditions at our ISO9001:2000 accredited factories, ensuring quality and performance.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>

NATURAL SISAL FIBRE LASHING

- Biodegradable, environmentally friendly
- High in strength & knotting efficiency
- Low elongation
- Easy on the hands
- Resistant to solvents, mineral oils & alkalis
- Available in 2 ply

A natural alternative for horticultural & market gardening. Also used for copper pipe bundling, machine parts tying & parcel tying in commercial applications. Sisal is biodegradeable, making it ideal for zero waste projects.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
LAN0004	SISAL LASHING MEDIUM 2/200 2 PLY 6 x 440M	9500T	135 KG	25 KG

MULTI-END POLYPROPYLENE LASHING

- Convenient and cost effective
- Used to hang meat and general usage
- High breaking load
- PP will not burn, curls and shrinks at 150°C
- Used for repetition tying
- Meets US FDA food regulations

A range of Multi-end coils made from high grade polypropylene twine used within the meat industry. Multi-end coils are a convenient and cost effective way of obtaining 25 lengths of twine with one cut. Commonly used to hang meat, securing & bunching, general tying, and pallet lashing.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
LAS0040	PP LASHING 1/200 25END x 135M ME COIL	4860T	170KG	17.0 KG

LAS0044	PP LASHING 3/350 25END x 90M ME COIL	8500T	315KG	20.0 KG

POLYESTER BUTCHERS TWINE

- Officially approved for use in export grade meat products
- Meets US FDA food regulations
- Lightweight, knots well
- High melting point
- High breaking load

Donaghys polyester butchers twine as the name suggests, was designed for use by butchers. White in colour, it has been officially approved by MAF for use with meat, fish, game & poultry.

The twine is coated with bindacoat to smooth fibres and resists fraying when cut. Also available in finer thickness with distinctive Red/White & Blue/White colouring specifically designed for identification and smallgoods hanging twine.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
TWI3005	PEST BUTCHERS TWINE 20 x 400M CTN	1800T	120 KG	15.2 KG
TWI3007	PEST BUTCHERS TWINE 20 x 355M CTN	2475T	126 KG	16.5 KG
TWI3035	PEST BUTCHERS TWINE 20 x 400M CTN	2475T	126 KG	17.5 KG

HORT TWINE

- Medium to heavy twines for stronger applications
- Strong, soft handling & knots well
- UV stabilised for increased durability
- Does not absorb moisture or rot
- Pull from centre release ensuring smooth running

Hort twine is a strong synthetic lashing which holds and knots well, is soft in handling and does not absorb moisture or rot. Each spool has pull from centre release.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
LAS0006	PP HORT TRELIS TWINE 2 X 6000M BLUE	1100T	50KG	13.2KG
LAS0005	PP HORT TRELIS TWINE 2 X 2000M BLUE	3000T	120KG	12.0 KG

MARKET GARDEN PP MULTI-END LASHING

- Convenient draw from centre multi-ends allowing 50 ends of lashing at a time for multiple cuts
- PP will not burn, curls and shrinks at 150°C
- High breaking load
- Resistant to most acids, alkalis, bleaching & organic solvents, bacteria & fungi
- Used for gardening, horticulture & repetition tying

Multi -end lashings have the same attributes of synthetic vegie twines conveniently packaged as a multi-end coil. With multi-ends you can draw 50 ends of lashing from the coil at once to enable convenient multiple cuts, saving you time and money.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
LAS0008	PP LASHING 1/700 50END x 250M MULTI END COIL	1400T	65KG	22 KG
LAS0017	PP LASHING 1/500 50END x 250M MULTI END COIL	2000T	80KG	25 KG

JUTE MARKET GARDEN YARN

- Natural fibre, biodegradable gentle on plants
- Easy on the hands
- High knotting efficiency
- Resistant to minerals, oils, alkalis & volatile petroleum solvents

Jute market garden yarn is a natural biodegradable twine, cut to length in convenient multi end cops. It has a soft feel and is used for all types of cut length general purpose tying at harvest. Used extensively in flower growing establishments & nurseries for bunching & for general purpose market garden applications.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
TWI0010	JUTE MARKET GARDEN YARN 2/560 50 END x 80M MULTI END COP	1120T	24KG	5 KG

WAXED NYLON WHIPPING TWINE

- Heavy waxed coated, strong 5 ply construction
- Good dielectric properties & good recovery from stretch
- Decomposes at 371°C
- Resistant to dilute mineral & organic acids, salt water, alkalis, organic solvents, mildew & fungi

This heavy waxed coated twine is made from strong Nylon fibre constructed of 5 plies. With good dielectric properties and good recovery from stretch. It is ideal for whipping or seizing.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>

POLYSTRING

A range of general twines and strings for general day to day use

- Economical, Strong & durable
- Resistant to most acids, Alkalis, organic solvents, bleaching & fungi
- Available in bright colours ideal for tagging, general & gardening twine

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
PRP8503	POLYSTRING COLOURED 10 X 150M BALL		15KG	0.60KG

TARRED MARLINES

JUTE TARRED MARLINE

- Twisted 2 PLY natural fibre construction
- Unique tarring process
- UV light & salt water, fungi & mildew resistant
- Long life

POLYESTER TARRED MARLINE

- Plaited Polyester construction
- Unique tarring process
- UV light & salt water, fungi & mildew resistant
- Long life

Suitable for Marine sewing, whipping ends of rope, seizing, tying up joins & general rigging

<u>CODE</u>	<u>DESCRIPTION</u>	<u>TEX</u>	<u>TENSILE</u>	<u>WEIGHT</u>
