

Donaghys Accessories

HOT KNIFE CUTTERS

- Available in cordless, hand held and bench type models
- For use on synthetic ropes, twines and braids
- Cuts and seals low melting point synthetic fibres with ease
- Not suitable on Natural, Vectran®, Kevlar® or PBO fibres
- Cordless option offers portability and has double protection of thermostat to prevent overheating. Features an On/Off spring loaded safety trigger.
- Cordless Kit comes complete in a box with cutter, spanner, brush, battery pack (Lithium-ion 14.4V/2.2 Ah), R Blade, charger (100-240V AC, 16.8V DC/1.7A).
- Hand held cutter is packed in a case with Type R blade, wire cleaning brush, small spanner and operating instructions. Power type 220-230 Volt ~ 60W.
- Bench type model dimensions are 190mm x 100mm x 160mm with a blade width of 100mm. Power type 230V ~ 80W.

ROPE MEASURER

- Accommodates rope and cordage from 6mm to 20mm in diameter.
- The toothed Measuring Wheel and Stainless Steel Pressure Shoe assures uninterrupted NO SLIP contact with cordage.
- Wall or bench mounted
- Digital counter adds or subtracts
- Resets to zero with one turn of knob
- Conforms to Weights and Measures specifications

SPLICING KITS

- All the tools you need to create a perfect splice
- For double braids
- Two options available (Donaghys kit and Selma kit)
- Donaghys Splicing kit contains five splicing fids to splice from 6mm to 24mm and a wire fid pusher
- Selma Splicing kit contains five needles to splice from 4mm to 13mm
- Complete with full splicing instructions
