

Hotline Static FRAS Rope

FEATURES

- Designed for use for access to areas with extremely high temperatures
- High performance KK Aramid cover enhances resistance to damage from sharp objects
- Higher abrasion and heat resistance than all other types of LSK static ropes
- Treated and heat set for lower stretch
- No strength loss when wet
- Fully certified to EN1891 standards
- Features certification tracer thread, coloured year of manufacture marker with batch coding on each spool

RANGE/TECHNICAL

- 11mm x 100m reel
- Yellow colour

Diameter \varnothing	11mm
Rope Classification (A or B)	A
Sheath Slippage %	1.8
50-150kg Elongation	2.5
Minimum sheath content	20%
Shrinkage %	0.3
Mass grams per metre	85g
Static Strength (under test conditions)	43kn

APPLICATIONS

- Access areas with extremely high temperatures
- Welding applications

Also available in the Response® range:

Cougar Access Line

Response® Dynamic Access Line

Armor Prus Performance - The Prusik master line

Armor Prus Poly - The economic Prusik high performance line

Response® LSK - Polyester/Nylon static line

Response® XT - Nylon/Nylon static line

Response® Accessory Cords - Fluro Orange and Black colours

NRG - Polyester heat set access line
