

# Lifebuoy Cabinet

Donaghys Lifebuoy Cabinets are designed for easy access to lifesaving equipment in any coastal, marine, boating or industrial environment.

The cabinets are sold in complete units supplied with a removable cover, encapsulated floating line holder and 30 metres of 8mm braided floating heaving line (Lifebuoy is not included).

## FEATURES

- A 30m braided line (8mm diameter) with clip
- Suitable for attaching to lifebuoys and life rings
- Cabinet can store both 30 inch and 24 inch round Lifebuoy Rings with the encapsulated floating line holder paddle
- Removable lid protects the lifesaving equipment against vandalism, theft and the elements
- The housings can be screwed direct to a wall or a fence, or they can be mounted using a galvanised mounting pole
- Strong resistance to corrosion, UV damage and the elements
